

KNOW BEFORE YOU GO: *YOUNG FRANKENSTEIN*

PARENTAL ADVISORY: *The musical version of Young Frankenstein is a saucy S-E-X comedy. It is not Blazing Saddles crude, and there is no campfire scene with an epic cowboy crepitation contest — just a lot of risqué references to the male and female anatomy and a few amorous embraces that would be tame even for network television. If Young Frankenstein were a motion picture, it would probably be rated PG-13, so leave younger children and prudish friends and family at home. You'll be glad you did.*
