Kid Spotlight

**Galayna Judkins Wade**  
*John Hardin High School*

**WHAT HAVE YOU PARTICIPATED IN AT THE PAC?**  
*Annie Get Your Gun, Hairspray, Footloose and Of Mice and Men.*

**WHAT DID YOU LEARN FROM YOUR EXPERIENCES?**  
More than anything, the PAC has given me the confidence to say "I don't know." I never realized how valuable that was. At first I was afraid to admit that I didn't know something. The PAC staff hinted, nudged, and then shoved me into admitting I was clueless so they could get on with teaching me.

**WHAT DO YOU WANT TO BE WHEN YOU GROW UP?**

A Japanese multimedia communications specialist.

**HOW HAS THE PAC HELPED YOU TOWARD THAT GOAL?**

The PAC has given me not only a thorough education in presentation both on and off the stage, but also valuable insight into the media aspects of running any kind of business. The wide variety of multimedia aspects the PAC utilizes gave me the opportunity to consider technology and uses that I hadn't before.

**WHY IS THE PAC IMPORTANT TO YOU?**

I moved to Elizabethtown my junior year. Before school started that summer, I got involved in *Annie Get Your Gun*. The PAC was the place I made my first friends. I've learned so much at the PAC, and no matter what I didn't know or what mistakes I have made, there was always someone willing to teach me. I found a family here that made me feel like I belonged from the moment I walked in. The PAC is important because even if I just stepped into the office to chat for a moment, I learned something. The PAC is important for giving everyone who feels like they don't fit in a chance to be whoever they want. But most of all, to me, the PAC is important because it's home.
