SHARING OUR STAGE SINCE 2001

SPOTLIGHT

Tracy Arflin

Catch Tracy in *Arsenic and Old Lace* this month at the PAC!

What did you learn from your PAC experiences?

I've learned that there is an extremely large amount of time and commitment involved in delivering a quality performance. I've also learned that talent takes many forms.

How have you benefited from the PAC?

The opportunities I've had at the PAC have helped me reveal a part of my personality that previously had been untapped. All the world is, in fact, a stage... only now I actually get to be on a designed one and I know the outcome. I've also been blessed to have acquired good friends that I otherwise would have never met.

Why is the PAC important to you?

The PAC offers an avenue for people to experience creativity... either their own or someone else's. The venue itself is really impressive and a wonderful place to view an event.

BECAUSE ALL THE WORLD'S A STAGE
